EDUCATION

QK "11 Marsi", Kosovo

2024 – Present

Software Design – GPA: 5.0 in the Kosovo grading system.

Relevant coursework: Software Design Fundamentals, Web Development Basics, programming fundamentals, and practical software development.

PROFESSIONAL EXPERIENCE

Probool, Kosovo

Aug 2025 – Present

Software Development Intern

- Building and improving a movie application using the TMDB API.
- Working on reusable React components, API integration, responsive UI, debugging, and clean code organization.
- Gaining practical experience in professional development workflow, project structure, and collaboration.

JCoders, Prizren, Kosovo

2023 – 1 month

Assistant Mentor

- Assisted a mentor during programming sessions and supported students with beginner development concepts.
- Helped students understand practical coding tasks, problem-solving steps, and basic web development logic.

PROJECTS & EXTRACURRICULAR

Edona Tours

- Full-stack travel booking platform with user authentication, tour listings, a booking system, payment integration, and a dedicated admin dashboard for managing tours and reservations.

E-Notepad

React, Node.js, Express.js,
MongoDB

- Note-taking app where every note is assigned its own unique shareable URL, allowing direct access and sharing without requiring users to log in.

Advanced OCR

- OCR-focused project for extracting and processing text from images or documents.

E-Commerce

- Online shop project focused on product listings, shopping flow, and admin-side product management.

Expense Tracker

- Personal finance app for tracking income and expenses with categories, CRUD operations, summaries, and charts.

Weather App & Movie App

- Portfolio applications focused on API integration, responsive UI, data fetching, and clean front-end architecture.
